Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Instant claims are directed to an aqueous hair care composition comprising a UV-absorbing substance, at least one mica/titanium dioxide pigment having a particle size between 10 to 250 microns and green tea extract; and a method of improving hair styling properties using the said composition, wherein the improvement comprises achieving one or more of dry combability, wet combability, feeling of the hair when wet, texture and body of dry hair. The declaration submitted by applicants shows unexpected results in the claimed hair properties with a combination of titanium oxide/mica pigment particles and UV absorbing substance than with UV absorbing substance alone or titanium oxide/mica particles alone. The prior art of record individually teaches pigment and UV-absorbing substance, but fails to teach a combination of two thus yielding the claimed improvement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
